

## **IMPORTANT INFORMATION ABOUT EYE CARE INSURANCE**

There are two types of insurance that may apply to your eye care:

- 1. Vision**
- 2. Medical**

Vision insurance benefits apply to services for routine eye examinations which consist of a general eye health screening and eyeglass prescription. Contact lens procedures are usually NOT covered by insurance and the patient is responsible for these fees.

Medical insurance benefits apply to the procedures for the diagnosis, treatment or counseling of problems such as dry eye syndrome, infections, allergies, diabetes, cataracts, and glaucoma. Such eye care is NOT covered by Vision insurance and is billed to the Medical insurance.

The patient is responsible for any applicable co-pays or deductibles for both Vision and Medical insurance plans.

Both Vision and Medical insurances may be billed on your behalf depending upon the nature of your eye problem(s). If you do not have vision or medical insurance, you are responsible for these fees.
